Specialist intimate hygiene emulsion

for women and children from 1 year of age

Logo IBSS BIOMED S.A. (1x)

Ingredients of the emulsion gently wash, care and protect against the growth of unfavourable microorganisms

0% parabens preservatives

### **Product description**

prOVag emulsion is a specialist cosmetic for everyday care and hygiene of the intimate areas. It provides a gentle wash, care and eliminates unpleasant smell. It also moisturises, soothes and alleviates irritations.

prOVag emulsion contains **natural active ingredients in the form of *Lactobacillus* bacteria metabolites**. These bacteria are an inherent component of a natural vaginal microflora and constitute a physiological protective barrier of the intimate areas.

*Lactobacillus* bacteria metabolites contained in the emulsion have antimicrobial properties and help to prevent the growth of unfavourable microorganisms.

prOVag emulsion **does not contain preservatives** and so it does not disturb the natural bacterial flora of the intimate areas.

### **Action**

Due to carefully selected ingredients, prOVag emulsion provides comprehensive action:

- ***Lactobacillus* bacteria metabolites** protect the intimate areas against the growth of unfavourable microorganisms and help to maintain the natural bacterial flora
- **aloe extract** supports the natural regeneration processes of the skin, nourishes and moisturises it
- **panthenol** and **allantoin** successfully alleviate irritations and accelerate regeneration processes
- **caprylyl glycol** moisturises and softens the skin
- **glycerin** has perfect moisturising properties and eliminates the discomfort related to dryness
- **lactic acid** helps to maintain the physiological acidic pH, which provides natural protection for the intimate areas against the growth of unfavourable bacterial flora
- **washing agents** with delicate action, do not irritate the skin

Women prone to recurring disorders of the genitourinary system are recommended to use **prOVag gel** and **prOVag** - food for special medical purposes **in the form of oral capsules**.

### **Instructions for use**

Press the pump dispenser a few times before the first use until the emulsion comes out. Take a small amount of prOVag emulsion on a clean hand, dilute it with water, wash the intimate areas and rinse well with running water. Use for everyday care of the intimate areas.
